Michell's Introduce for the 1938 Season ZVOLANEK'S GIANT CLIMBING PANSY

We are pleased to advise our customers that after many years of painstaking work, Mr. C. Zvolanek has succeeded in producing this magnificent strain of Tree Pansy, which we consider the finest of its type. The plants grow to a height of 3 feet and produce immense blooms on stems 16 to 18 inches long. The colors are a pleasing blend of light and dark shades. This strain is very free flowering, making it ideal for winter forcing, when the blooms will command a high price. We offer the originator's strictly new-crop seed, ready for delivery early in June. Trade pkt. (100 seeds) \$1.75; \$5.00 per 3 trade pkts.

- NEW GIANT PANSY, MICHELL'S "SPRINGTIME."** We are pleased to offer this splendid new early-flowering Giant Pansy whose blooms measure 3 1/2 to 4 inches across. The plants are of very dwarf habit, in a superior mixture of light colors so popular in the spring garden. An excellent type for early sales in boxes or baskets.
